NOTICE TO CONTRACTORS

Cowichan-Newcastle Electoral District

Bridge Project No. 470—Trans-Canada Highway, Improvements to Highway Approaches, Westholme Overhead Crossing and Diamond Overhead Crossing, Contract No. 2, Mile 41.4 and Mile 54.6.

SEALED TENDERS, marked "Tender for Bridge Project No. 470—Improvements to Westholme Overhead Crossing and Diamond Overhead Crossing, Contract No. 2," will be received by the Minister of Highways in his office at the Parliament Buildings, Victoria, B.C., up to 2 p.m. (Pacific Standard time) on Tuesday, the 13th day of April, 1965, and opened in public at that time and date. Contractors are eligible if, at the time when the contract is entered into, the contractor was a resident of Canada or, if the contractor is a corporation, it was, for a period of at least one year immediately prior to that time, incorporated and carrying on business in Canada or the owners of a majority of the shares of such corporation were resident, for a period of at least one year immediately prior to incorporation, in Canada.

The work to be carried out under this contract consists of the entire improvements, including paving, of highway approaches to the two existing bridge structures. Plans, specifications, and conditions of tender may be obtained from the Department of Highways, 635 Burrard Street, Vancouver 1, B.C., or from the undersigned, for the sum of ten dollars (\$10), which is not refundable.

Each tender must be accompanied by a certified cheque or a bid bond in an amount equal to five per cent (5%) of the tender price. This cheque or bond shall be forfeited if the tenderer declines to enter into contract. If a bid bond is used, a performance bond in the amount of one hundred per cent (100%) of the tendered sum, in a form acceptable to the Minister of Finance, must then be provided by the successful bidder prior to the award of the contract. If a deposit cheque is used, it shall be retained and forfeited if the contractor fails to carry out the work contracted.

Tenders must be made out on the forms supplied and enclosed in the envelope furnished.

Tenderers are advised that all bidders will be required to satisfy the Minister of Highways, in writing, that they have the necessary qualifications to successfully perform the work. It is preferred that tenderers submit with their tenders a list stating the type, capacity, and present location (so that inspection can be made if necessary) of the equipment in their possession or at their disposal which is immediately available for the carrying-out of the work within the time-limit specified

without in any way curtailing or delaying any Departmental project that may be under contract at this date.

No tender will be accepted or considered which contains an escalator clause or any other qualifying conditions, and the lowest or any tender will not necessarily be accepted.

It is preferred that tenderers submit with their tenders a schedule of proposed construction operations showing estimated monthly progress for each phase of the construction work.

NOTICE TO CONTRACTORS

Comox Electoral District

Bituminous Surfacing, 1965/66

Project No. S-0265—Island (Sayward) Highway, Menzies Bay-Sayward Section (30.62 Miles).

SEALED TENDERS, marked "Tender for Bituminous Surfacing 1965/66, Project No. S-0265," will be received by the Minister of Highways in his office at the Parliament Buildings, Victoria, B.C., up to 2 p.m. (Pacific Standard time) on Tuesday, the 6th day of April, 1965, and opened in public at that time and date.

Plans, specifications, and conditions of tender may be obtained from the Department of Highways, 635 Burrard Street, Vancouver 1, B.C., or from the undersigned for the sum of ten dollars (\$10), which is not refundable.

Each tender must be accompanied by a certified cheque or a bid bond in an amount equal to five per cent (5%) of the tender price. This cheque or bond shall be forfeited if the tenderer declines to enter into contract. If a bid bond is used, a performance bond in the amount of one hundred per cent (100%) of the tendered sum, in a form acceptable to the Minister of Finance, must then be provided by the successful bidder prior to the award of the contract. If a deposit cheque is used, it shall be retained and forfeited if the contractor fails to carry out the work contracted.

Tenders must be made out on the forms supplied and enclosed in the envelope furnished.

Tenderers are advised that all bidders will be required to satisfy the Minister of Highways, in writing, that they have the necessary qualifications to successfully perform the work. It is preferred that tenderers submit with their tenders a list stating the type, capacity, and present location (so that inspection can be made if necessary) of the equipment in their possession or at their disposal which is immediately available for the carrying-out of the work within the time-limit specified without in any way curtailing or delaying any Departmental project that may be under contract at this date.

No tender will be accepted or considered which contains an escalator clause or any other qualifying conditions, and the lowest or any tender will not necessarily be accepted.

It is preferred that tenderers submit with their tenders a schedule of proposed construction operations showing estimated monthly progress for each phase of the construction work.

H. T. MIARD,
Deputy Minister.

NOTICE

In the Matter of the Special Surveys Act

TAKE NOTICE that the following order has been made by the Deputy Attorney-General pursuant to the provisions of the *Special Surveys Act* in respect of a special survey of the lands and boundaries of lands described therein:—

“In the Matter of the Special Surveys Act, and in the Matter of the Special Survey of Section 33, Township 7, East of Coast Meridian, New Westminster District.

“Whereas pursuant to the *Special Surveys Act* the then Deputy Attorney-General, on the 30th day of March, A.D. 1944, pursuant to the request of the Council of The Corporation of the District of Surrey, did direct that a special survey be made and a plan prepared by G. K. Burnett, B.C.L.S., of the above-described lands lying within the municipality of Surrey:

“Whereas a plan of the special survey together with Mr. Burnett's report has been duly deposited with the Attorney-General:

“Whereas in accordance with section 23 of the Act I appointed Mr. A. A. Milledge, Registrar of the New Westminster Land Registration District, to hear any complaints or claims with respect to the special survey or the surveyor's report:

“And whereas Mr. Milledge did attend at the time and place appointed to hear any complaints or claims with respect to the special survey or the surveyor's report and duly reported thereon to the Attorney-General:

“In accordance with the provisions of section 26 of the Act, I hereby order

“(a) that the report (attached hereto) of Mr. Burnett, B.C.L.S., be adopted and confirmed;

“(b) that Mr. Milledge's report (attached hereto) be adopted and confirmed;

“(c) that the plan of the special survey be amended as recommended by Mr. Milledge;

“(d) that compensation payable in accordance with the surveyor's report in respect of the increased value of a parcel shall be added to the cost of the survey in respect of that parcel, and that where damage has been fixed in the surveyor's report in consequence of a decrease in value, the damage shall be deducted from the cost of the survey in respect of the parcel affected;

“(e) that the costs and expenses of the special survey, including land registry fees, shall be apportioned

in proportion to the respective areas of the parcels comprised within the limits of the special survey, and in respect of parcels consisting of highways shall be charged against The Corporation of the District of Surrey, and in respect of parcels other than highways shall be charged against the respective registered owners of the parcels created by the plan of the special survey; and

“(f) that where, in consequence of the special survey, any land is added to any previously existing parcel, that land be vested in the registered owner of that parcel subject to any registered charge that exists against the parcel of which it becomes a part.

“Dated at Victoria, B.C., this 22nd day of February, 1965.

“GILBERT D. KENNEDY,
“Deputy Attorney-General.”

That Mr. G. K. Burnett, B.C.L.S., has amended the special survey plan as required by clause (c) of the above order:

And further take notice that His Honour the Lieutenant-Governor in Council has been pleased to order that the aforesaid order of the Deputy Attorney-General be hereby confirmed:

And that the special survey and plan attached hereto be approved:

And that the special survey and plan be declared to be the true and correct survey and plan of the lands and boundaries of land affected thereby:

And that all boundaries and lines fixed by the special survey and plan be declared to be and are the true boundaries and lines whether of highways, rivers, or creeks or as between the adjoining owners or between the adjoining parcels, and whether or not such boundaries and lines were theretofore the true boundaries and lines:

And that the special survey and plan be substituted for all former surveys and plans of the lands affected which have theretofore been registered, or for the corresponding portions of such former plans or surveys.

R. W. BONNER,
Attorney-General.

LEGISLATIVE ASSEMBLY

PRIVATE BILLS

Excerpt from Standing Orders Relating to Private Bills

100. (1) All applications to the Legislative Assembly for Private Bills of any nature whatsoever shall require the publication of a notice clearly and distinctly specifying the nature and object of the application, and when the application refers to any proposed work, indicating sufficiently the location of the work, to be signed by or on behalf of the applicant.

(2) Such notice shall be published in The British Columbia Gazette and once a week in one leading daily newspaper freely circulating in all parts of the Province. The notice in such newspaper to appear on Wednesday of each week.

(3) When the proposed Bill is of such a nature that it may particularly affect one or more electoral districts, the notice shall furthermore be published once a week if possible in some newspaper in every electoral district affected, or if there be no newspaper published therein, then in a newspaper published in the electoral district nearest thereto.

(4) The publication of such notice shall in all cases be continued for a period of four weeks during the interval of time between the close of the next preceding Session and the consideration of the petition.

97. No petition for any Private Bill shall be received by the House after the first ten days of each Session, nor may any Private Bill be presented to the House after the first three weeks of each Session, nor may any report of any Standing or Select Committee upon a Private Bill be received after the first four weeks of each Session, and no motion for the suspension or modification of this Standing Order shall be entertained by the House until the same has been reported on by the Committee on Standing Orders, or after reference made thereof at a previous sitting of the House to the Standing Committees charged with the consideration of Private Bills, who shall report thereon to the House. And if this rule shall be suspended or modified as aforesaid, the promoters of any Private Bill which is presented after the time hereinbefore limited, or for which the petition has been received after the time hereinbefore limited, shall in either case pay double the fees required in respect of such Bill by this rule, unless the House shall order to the contrary.

98. (1) Any person seeking to obtain any Private Bill shall deposit with the Clerk of the House, eight clear days before the opening of the Session:—

(a) A printed copy of such Bill;

(b) A copy of the petition to be presented to the House;

(c) Copies of the notices published, with publication proved by a statutory declaration or affidavit to the satisfaction of the Clerk of the House.

(2) At the time of depositing the Bill and petition the applicant shall also pay to the Clerk of the House the sum of three hundred dollars.

(3) If a copy of the Bill, petition, and notices proved as aforesaid shall not have been so deposited in the hands of the Clerk of the House at least eight clear days before the opening of the Session or if the petition has not been presented to the House within the first ten days of the

Session, the amount to be paid to the Clerk shall be six hundred dollars. If the Bill shall not pass second reading one-half of the fees shall be returned.

101. Every petition signed by an agent or attorney in fact shall be accompanied by the authority of such agent or attorney in fact, and the petition shall not be deemed to be filed with the Clerk until this is done.

102. Before any petition praying for leave to bring in a Private Bill for the erection of a toll-bridge is received by the House, the person or persons intending to petition for such Bill shall, upon giving the notice prescribed by Standing Order 100, also at the same time and in the same manner give notice of the rates which they intend to ask, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts or vessels, and mentioning also whether they intend to erect a drawbridge or not, and the dimensions of the same.

103. (1) All Private Bills for Acts of incorporation shall be so framed as to incorporate by reference to the clauses of the general Acts relating to the details to be provided for by such Bills: Special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof in which the general Act is proposed to be departed from. Bills which are not framed in accordance with this Standing Order shall be recast by the promoters and reprinted at their expense before any Committee passes upon the clauses.

(2) Every Bill for an Act of incorporation, where a form of model Bill has been adopted, shall be drawn in accordance with the model Bill (copies of model Bills may be obtained from the Clerk of the House). Any provisions contained in any such Bill which are not in accord with the model Bill shall be inserted between brackets or underlined, and shall be so printed.

(3) Any exceptional provisions that it may be proposed to insert in any Bill shall be clearly specified in the notice of application for same.

107. All Private Bills shall be prepared by the parties applying for the same, and printed in small-pica type, twenty-six ems by fifty ems, on good paper, in imperial octavo form, each page when folded measuring 10¾ inches by 7½ inches. There shall be a marginal number every fifth line of each page; the numbering of the lines is not to run on through the Bill, but the lines of each page are to be numbered separately. Three hundred copies of each Bill shall be deposited with the Clerk of the House immediately before the first reading. If amendments are made to any Bill during its progress before the Committee on Private Bills, or through the House, such Bill shall be reprinted by the promoters thereof.

In the case of Bills to incorporate companies, in addition to the fee of \$300 mentioned in Rule 98, fees calculated on the capital of the company are payable at the same time. Further particulars can be had on application to the undersigned.

All cheques in payment of fees must be certified.

Dated January 5, 1949.

E. K. DeBECK,
Clerk, Legislative Assembly.

NOTICE

In the Supreme Court of British Columbia

In the Matter of the Quieting Titles Act, Being Chapter 327 of the Revised Statutes of British Columbia, 1960, and Amendments Thereto; and in the Matter of Title to Certain Lands Accreted to Part of Lot 21, Section 22, Township 9, Osoyoos Division of Yale District, Plan 455.

TAKE NOTICE that an application was made by Peter George Legg and Pauline Legg before His Honour Judge Washington, Local Judge of the Supreme Court of British Columbia, on Monday, the 15th day of March, 1965, at the Courthouse, Vernon, under the *Quieting Titles Act* for a declaration that certain lands have accreted to the aforesaid lands:

And further take notice that on the hearing of the said application His Honour Judge Washington made the following Order:—

"And upon it appearing that a parcel of land containing 0.285 acre, more or less, situate along the foreshore of Long Kalamalka Lake, as shown outlined in red on a plan of the said part of Lot 21 prepared by Peter Tassie, B.C.L.S., and sworn correct the 13th day of October, 1964, has accreted to the said part of Lot 21:

"And upon it appearing that the petitioners, Peter George Legg and Pauline Legg, are entitled to a declaration of title of this Court under the authority of the *Quieting Titles Act*, R.S.B.C. 1960, chapter 327, that they are the legal and beneficial owners in fee-simple as joint tenants of all those lands and premises consisting of the aforescribed accreted parcel of land, which said land and premises are shown outlined in red on the plan prepared by Peter Tassie, B.C.L.S., sworn correct the 13th day of October, 1964, hereunto annexed and made part of this order, free and clear of all encumbrances whatsoever:

"This Court doth order that after due publication of a notice of this application and of this order having been made in one edition of The British Columbia Gazette and in two editions of The Vernon News appearing in the fourth week of March, 1965, and the second week of April, 1965, respectively, and after filing an affidavit of proof of the said publications, and after the expiration of four weeks from the date of the first publication in The British Columbia Gazette and

in The Vernon News aforesaid, and if no notice of adverse claim has been filed in the manner provided by the *Quieting Titles Act*, then a declaration of title with respect to the aforescribed parcel of land containing the said 0.285 acre, more or less, be granted and issued to the petitioners herein."

NOTICE

In the Matter of—

- (a) The Proposal Made by Rayonier Canada (B.C.) Limited for a Pulpwood Harvesting Area to Include the Following Public Sustained-yield Units: Broughton, Harrison, Redonda, Yale, Sechelt, Yalakom, Soo, Big Bar, Chilliwack.
- (b) The Proposal Made by United Pulp Co. Ltd. in Association with Price Brothers & Company Limited for a Pulpwood Harvesting Area Covering the Following Public Sustained-yield Units: Soo, Quesnel Lake, Yalakom, Cottonwood, Big Bar, Stum, Lac la Hache, Taseko, Williams Lake.
- (c) The Counter-proposal by Cariboo Pulp & Paper Company Limited for a Pulpwood Harvesting Area to Include the Following Public Sustained-yield Units: Big Bar, Stum, Cottonwood, Taseko, Lac la Hache, Williams Lake, Narcosli, Quesnel Lake.

UNDER authority invested in me under section 17A of the *Forest Act* as Minister of Lands, Forests, and Water Resources, the following public hearings were held:—

- (a) January 4, 1965, in the Law Courts, Victoria, B.C., to consider the request of Rayonier Canada (B.C.) Limited for a pulpwood harvesting area.
- (b) January 5, 1965, in the Law Courts, Victoria, B.C., to consider the request of United Pulp Co. Ltd. in association with Price Brothers & Company Limited for a pulpwood harvesting area and to also consider a counter-proposal by Cariboo Pulp & Paper Company Limited.

At the hearing on January 4th, Rayonier Canada (B.C.) Limited presented to me the following proposal:—

- (1) An agreement for a pulpwood harvesting area under section 17A of the *Forest Act* be entered into to support the expansion of its Woodfibre pulp-mill from its present capacity of 250 tons per day to a minimum capacity of 550 tons per day. This expansion requires a new wood supply of 22.5 million cubic feet annually.
- (2) In the Yalakom and Big Bar Public Sustained-yield Units the pulpwood requested is the same as that defined in other pulpwood harvesting areas already established; that is, wood below the standard of sawmill utilization.
- (3) In the other seven units both sawlogs and pulp-logs are a normal part of log production, the pulp-log being distinguished by quality rather than size. The pulpwood requested in these units is not the normal pulp-log traditionally produced, but the smaller or poorer-quality wood now wasted, and stands not now usable by reason of size or condition. There is no intention to include material which is now recovered in normal log production.

The object throughout is to use wood which is not now being utilized in the areas under application.

- (4) The Rayonier Company undertakes under this proposal:—

(a) To build an expansion of the Woodfibre pulp-mill, at an estimated cost of \$24,000,000, which will use the wood under application. The expansion was commenced in August, 1963, shortly after the map reserve for this pulpwood harvesting area was established and is now three-quarters completed:

(b) To install a new wood-room at Woodfibre especially designed to utilize this wood efficiently:

(c) To promote production of this wood by operators in these sustained-yield units:

(d) To purchase the wood, thus providing a market for it which does not now exist to any appreciable degree.

In support of this proposal, statements were made by the following groups:—

- (1) Mamquam Logging Associates Ltd.
- (2) Williams Logging Co. Ltd.

- (4) Pemberton and District Board of Trade.
- (5) The Corporation of the Village of Squamish.
- (6) F.M.C. Chemicals Ltd.
- (7) Woodfibre Community Club.
- (8) Britannia Beach Community Club.

There were no counter-proposals, but objections were received from 34 individuals, companies, or organizations, which could be summarized under the following categories:—

- (1) United Pulp and Price Bros. objected on the grounds that Rayonier's wood supply is adequate, and they specifically requested that Rayonier's application for the Soo, Yalakom, and Big Bar Public Sustained-yield Units be refused as not being in the public interest as it would block the way of their proposal to establish a completely new industrial development.
- (2) There were 24 interested mainly with those units west of the Cascades, commonly known as the Coast units. Represented in this group were industrial associations and operators from small to large, all of them being established in one or more of the Coast units under application.

The objection of this group was to the granting of any type of exclusive right for any material, including salvage or pulpwood, to one individual company. It was pointed out, particularly by the larger companies, that current development of the already established industry would cause an increasing tightness in the raw-material supply, and any possible increase in such supplies, through increased utilization from the public sustained-yield units, should be available on a competitive basis for the entire industry on the Coast. On this latter point the associations and smaller operators were somewhat more specific in that they generally recommended that all harvesting of the pulpwood should be carried out by established loggers already in the public sustained-yield units and any increase in allowable cuts should be assigned to the operator producing the pulpwood volume.

- (3) Six expressed opinions with regard to the inclusion of the two units east of the Cascades—namely, the Yalakom and Big Bar Public Sustained-yield Units. The main point elucidated was that the existing sawmill industry should be permitted to utilize all material down to 7.1" diameter breast height and any resulting increases in quotas should be allotted to the existing established industry. As to how the above would affect the granting of pulpwood harvesting areas, opinion varied from those who advocated that established industry have a first refusal option on this small material ahead of the pulpwood harvesting area holder to those who advocated that the area should be left as an open area and that no pulpwood harvesting area agreement should be issued.
- (4) There was a group of three miscellaneous objectors, which may be summarized briefly as follows:—

The Corporation of the District of West Vancouver objected to any increase in pulp-manufacturing unless satisfactory assurances are given that adequate measures would be taken to safeguard against any deleterious effects from such pulp-processing.

The Municipality of Powell River and the Powell River Chamber of Commerce objected on the grounds that the pulpwood harvesting area would jeopardize the supply of timber available to MacMillan, Bloedel and Powell River Limited.

At the hearing on January 5th, United Pulp Co. Ltd., in association with Price Brothers & Company Limited, presented to me the following proposal: In consideration of the granting of the pulpwood harvesting area under application, the Company undertakes the following:—

- (1) To incorporate in British Columbia a new producing company to be jointly owned by United Pulp Co. Ltd. and Price Brothers & Company Limited:
- (2) To conclude forthwith contract negotiations with the Pacific Great Eastern Railway, British Columbia Power and Hydro Authority, and other agencies with respect to the acquisition of land, freight rates, power, and other services:
- (3) To commence construction of an 800-ton-per-day bleached-kraft pulp-mill and a 668-ton-per-day newsprint mill with two paper-machines on the proposed site at Squamish, B.C. The pulp-mill will be completed within 36 months of the granting of the licence, subject to the usual *force majeure* conditions, and currently the installation of the first newsprint-machine will be made:
- (4) To comply with all local, Provincial, and Federal regulations with respect to the use of water, disposal of effluent, and other matters affecting the public welfare:
- (5) To post such performance bonds as the Minister may require to assure compliance with the Company's stated intent.

In support of this proposal, statements were made by the following:—

- (1) Vanwest Logging Co. Ltd. and Anglo-Canadian Timber Products Ltd.

- (2) Howe Sound Timber Co. Ltd.
- (3) F.M.C. Chemicals Ltd.
- (4) Squamish and Howe Sound District Chamber of Commerce.
- (5) The Corporation of the Village of Squamish.
- (6) MacKenzie's Department Store.

As stated earlier, there was a counter-proposal received from Cariboo Pulp & Paper Company Limited in which they presented the following:—

The following public sustained-yield units are included in their proposal: Big Bar, Cottonwood, Lac la Hache, Narcosli, Quesnel Lake, Stum, Taseko, and Williams Lake. In addition they requested the inclusion of the unregulated area west of the Narcosli and also that they be given the right to compete for pulpwood stands within the special sale area south of the community of Hixon to the extent of 15 million cubic feet of pulpwood per year for 20 years.

If the above is awarded, they propose that Cariboo Pulp & Paper will undertake to finance, construct, and operate a minimum of a 750-ton-per-day bleached-kraft pulp-mill in the vicinity of the Town of Quesnel. The cost of the project will exceed \$60,000,000 and, when in operation, will employ 325 people in the mill and up to 200 in the woods, and they agree to post any required performance bond and undertake to contract the engineering of the pulp-mill within 60 days and to have it in operation within three years.

In support of this counter-proposal, statements were made by the following groups:—

- (1) Merrill Gardner Ltd.
- (2) Trout Lake Timber Co. Ltd.
- (3) Corporation of the Town of Quesnel with a petition containing 1,680 names.
- (4) Quesnel and District Chamber of Commerce.
- (5) School District No. 28 (Quesnel).
- (6) 103 individual letters and petitions.
- (7) Quesnel Constituency Club of the N.D.P. of B.C.

There were 27 objections received to the proposal and counter-proposal, and these may be summarized as follows:—

- (1) Rayonier Canada (B.C.) Limited object to the overlap with their pulpwood harvesting area application—that is, the Big Bar, Soo, and Yalakom Public Sustained-yield Units—because their need is greater than for a Squamish mill. The three units are just as tributary to Woodfibre as to Squamish. Their expansion is assured, whereas the Squamish mill is a proposal, and, finally, they made the first firm proposal.
- (2) There were 12 objections specifically against the inclusion of the Soo Sustained-yield Unit because this unit was west of the Cascades, and the same arguments presented the day before against any Coastal unit becoming part of a pulpwood harvesting area were given. One objection went further and stated that no pulpwood harvesting area should be granted regardless of the units involved—i.e., Coast and (or) Interior—to support a further pulp-mill located on the Coast.
- (3) Eleven Interior-based associations and operators basically requested that the existing sawmill industry should be permitted to utilize all material down to 7.1" diameter breast height, and any resulting

increases in quotas should be allotted to the existing industry. Some recommended that no pulpwood harvesting area be issued; others that they have the right of first refusal for such material over the pulpwood harvesting area holder. Some referred to all the Interior public sustained-yield units involved; others referred only to the units in which they operated.

- (4) In addition to the above, there were four miscellaneous objections, including Northwood Pulp Ltd., holders of Pulpwood Harvesting Area No. 3. They objected to the granting of the full area and specifically requested that the Cottonwood and Quesnel Lake Public Sustained-yield Units be left open. They contend that to grant such a licence to a mill which proposes to establish at tidewater violates the intention of the pulpwood harvesting area legislation, which was designed to develop a pulp economy in the Interior.
- (5) There were two objections received on the grounds of possible increases in air pollution in the Howe Sound area if a pulp-mill was established at Squamish, and, finally, an objection to the inclusion of the western portion of the Taseko Public Sustained-yield Unit because studies indicate that the timber resources in the area can be harvested at a cheaper cost by way of the Southgate River rather than by way of Williams Lake.

Considering the facts presented at the two hearings and the inventory data presently available to me, I propose to recommend to the Lieutenant-Governor in Council that the following action be taken with regard to the applications under review in this report:—

1. *The Pulpwood Harvesting Area Proposal of the Rayonier Canada (B.C.) Limited.*

The majority of the public sustained-yield units within this proposal are west of the Cascades, and in my mind the main question is as stated in my opening remarks:—

"The unknown factors at this time are, first, whether or not techniques can be developed to deliver this wood from any or all of these categories or from any of these units to a pulp-mill at an economic price, and, second, *whether or not, in view of the long-established log market on the Coast, an option agreement in the form of a pulpwood harvesting area agreement, should be issued for part or all of the categories of wood mentioned above.*"

At the hearings at Prince Rupert, Kitimat, and Smithers the same question arose, and in my final decision I stated:—

"During the hearing, evidence was given that pulp material in the form of salvage logging and lumber reject logs was being utilized in the already existing pulp-mills at Ocean Falls and Prince Rupert, with such practice extending as far east as Hazelton Public Sustained-yield Unit. In other words, such material is required and can be utilized by more than one pulp-mill. Under the circumstances it would not be in the public interest to allot the area exclusively to one individual company."

Exactly the same relative evidence was given at the hearings on January 4th and 5th, even more so to the effect that pulp

material was being utilized on all the Coast units to varying degrees of utilization standards. This was improving due to already existing demands, and therefore I can only arrive at the same conclusion, and that is that it would not be in the public interest to allot any areas west of the Cascades exclusively to one individual company. It is proposed, therefore, to disallow the pulpwood harvesting area proposal of Rayonier Canada (B.C.) Limited.

In lieu of pulpwood harvesting areas, studies will be made to combine certain public sustained-yield units, such as the Seymour, Cape Scott, and Broughton Units, with adjacent unregulated areas, and to calculate an annual yield of the combined units to a 9" close utilization standard, with deductions for unrecoverable losses that will occur during the first rotation. From this figure the revised total of existing quotas will be deducted and the difference will be made available as follows:—

A percentage will be reserved to the established operators within the unit and they will be given an opportunity to elect to utilize to the 9" close utilization standard, provided they show they have a smallwood or chip contract. On making such an election the timber sale involved will carry an increased quota.

A percentage will be used for pulp timber sales. Such sales will be initiated by the Forest Service, and they will be replaceable in the same manner as present normal timber sales in public sustained-yield units. Bidding will be restricted so that some of these sales can be directed toward new pulp-mill developments.

Finally, a small percentage will be reserved to the Forest Service for fringe sales, minor products, and contingencies.

The amount of the percentages for the above-noted categories will vary from unit to unit and will depend upon the timber types involved and the presently established operations within the area. During the hearings, strong representations were made that all increases in allowable annual cuts due to using close utilization standards should go to the established operators. At the time, however, I pointed out that if there was not sufficient pulp-mill capacity, such material could not and would not be utilized. In my opinion we must be realistic and retain some incentives in this regard.

In conclusion, the disallowance of this pulpwood harvesting area proposal should not jeopardize the present expansion plans at Woodfibre. In my opinion the necessary wood requirements can be obtained by gradually increasing the utilization standards on Tree-farm Licences Nos. 6, 24, and 25 to a 9" close standard, by competing for some of the previously indicated pulp timber sales, and by purchases from the established operators.

2. *The Pulpwood Harvesting Area Proposal of the United Pulp Co. Ltd. in Association with Price Bros. & Company Limited Together with the Counter-proposal by Cariboo Pulp & Paper Company Limited.*

With the elimination of the Soo Public Sustained-yield Unit, the units involved in the above proposals now become the Yalakom, Big Bar, Lac la Hache, Taseko, Stum, Williams Lake, Quesnel, Cottonwood, Narcosli, and the unregulated area west of the Narcosli. Even within this group I am convinced that a further elimination is necessary; that is, approximately one-half of the Taseko should be

added to the Tatla Public Sustained-yield Unit, with a portion of the unregulated area. At the same time a portion of the Tatla Public Sustained-yield Unit in the vicinity of Puntzi and Chilcotin Lakes will be deleted from the Tatla Public Sustained-yield Unit. This new unit will be renamed the Chilko Public Sustained-yield Unit, and the approximate boundary is shown as a broken line on the attached map. Engineering studies to date have substantiated the evidence given at the hearing to the effect that the harvest of this area should be to the Coast by way of access roads to Bella Coola in the north, and by roads to Bute Inlet via the Southgate River and possibly by the Homathko River in the south. Before a firm boundary can be established, however, further engineering studies and inventory data are required. The remaining half of the Taseko and the portion to be deleted from the Tatla Public Sustained-yield Unit will be added to the Stum Public Sustained-yield Unit and the remaining portion of the unregulated area added to the Narcosli Public Sustained-yield Unit.

In the area that is left the problem that we are faced with is whether or not this area, if utilized to 7" close standard, can support an increased production for the established sawmill industry, a pulp-mill at Squamish, and a pulp-mill at Quesnel.

I cannot agree with the Cariboo-P.G.E. Lumber Manufacturers' Association and those who supported their brief that all the increase should be granted to the established sawmill industry. As I stated before, unless sufficient pulp capacity is developed, the established industry would not have the necessary competitive markets for complete utilization of the maximum harvest. It must, however, be conceded that by necessity throughout the Cariboo area the established industry has already commenced more complete utilization and therefore is entitled to participate in any increase in the allowable annual cut, provided, of course, it is prepared to utilize to a 7" close standard. How much of the increased cut should be allotted to the pulp company and how much to the established operators will vary between units.

Another factor that must be considered at this time is that a Squamish-based pulp-mill can draw from supplies on the Coast and will be able to compete for the proposed pulp timber sales mentioned previously in this report when dealing with the Rayonier application. In addition, any mills participating in United Pulp and holding quotas in the Coast units will have an opportunity to increase their existing quotas provided they are prepared to utilize to a 9" close standard.

With the above factors in mind and after carefully considering the evidence presented at the hearing and the latest survey data, I propose to designate the area within the Quesnel Lake, Cottonwood, and the proposed extended Narcosli Public Sustained-yield Units to be Pulpwood Harvesting Area No. 5. I further propose to grant to Cariboo Pulp & Paper Company Limited, on evidence that the proper financing can be arranged, an option agreement to purchase the necessary wood supplies on the following basis:—

In Quesnel Lake, Block 2, quota has been available for years but never utilized because basically the area has extensive stands of pulpwood and they are not suitable for the normal sawlog operation. There is only one operator established in

this block, and it is proposed to move this operator to Block 1 and give Cariboo Pulp & Paper Company Limited an option to purchase the entire allowable annual cut of Block 2 of the Quesnel Lake Public Sustained-yield Unit.

In the case of Block 1 of the Quesnel Lake Public Sustained-yield Unit and the Cottonwood Public Sustained-yield Unit, the pulp company is to be given an option to purchase raw material up to 50 per cent of the difference between the present quotas and the allowable annual cut calculated to a 7" close utilization standard.

In the case of the Narcosli Public Sustained-yield Unit, this unit will be increased in size by adding to it the eastern half of the unregulated area. The allowable annual cut to a 7" close utilization standard for this new area will be considerably greater than the present quotas, and in this case it is proposed to give the pulp company an option to purchase raw material up to 50 per cent of the difference.

Based upon the above distribution, the proposed agreement would give the Cariboo Pulp & Paper Company Limited an option to purchase approximately 35,000 M cubic feet per year, and this, together with chips from their own installations, would be sufficient to operate a pulp-mill with a daily rated capacity of from 700 to 750 tons per day.

I propose to designate the area within the new Stum, Williams Lake, Lac la Hache, Big Bar, and Yalakom Public Sustained-yield Units Pulpwood Harvesting Area No. 6, and I propose to grant to United Pulp-Price Bros., on evidence that proper financing can be arranged, an option agreement to purchase the following:—

In the proposed extended Stum Public Sustained-yield Unit, by adding the eastern portion of the Taseko Public Sustained-yield Unit and that portion of the Tatla Public Sustained-yield Unit in the vicinity of Puntzi and Chilcotin Lakes, new quota-holders will be added, and for this reason it will only be possible to give to the pulp company an option to purchase up to 40 per cent of the difference between the present quotas and the allowable annual cut calculated to a 7" close utilization standard.

In the Williams Lake and Lac la Hache, three factors must be considered:—

- (1) When these units were established, the quotas were considerably less than past production (48 per cent).
- (2) Actual cut since inception has exceeded the allowable annual cut.
- (3) In general, utilization has been better than the 11" standard.

For these reasons, therefore, it is only possible, in these units also, to grant up to 40 per cent of the difference to the pulp company.

In the Big Bar and Yalakom it is proposed to give the pulp company an option to purchase up to 50 per cent of the difference between the present quotas and the allowable annual cuts calculated to a 7" close utilization standard.

Based upon the above distribution, the proposed agreement would give to United Pulp-Price Bros. an option to purchase approximately 20,000 M cubic feet per year or one-half the requirements for a kraft pulp-mill with a daily rated capacity between 700 and 750 tons. It is proposed that most of the other half of their requirements could come from chips from the mills of members of United Pulp. Evidence during the hearing placed this at an amount equivalent to 14 million

cubic feet per year, and in this regard, due to the disallowance of the Rayonier application, member mills of United Pulp with an assured market will be able to utilize to the 9" standard and thereby have their existing quotas increased. This still leaves a deficit of approximately 6 million cubic feet per year, and in this regard it is proposed to offer for sale a pulp timber sale in the Soo Public Sustained-yield Unit and declare the United Pulp-Price Bros. the applicant with the privilege of matching the highest bid.

Under the above proposal it will be noted that provision is only made for a kraft pulp-mill and no provision is made for the newsprint-machines. These, in my opinion, come under the category of possible future expansion, and in this regard it will be noted that a considerable volume of wood has been reserved or unallotted. It is proposed that the established sawmill operators will have the opportunity of acquiring this material under the normal timber sale contracts, provided they can show complete utilization by means of a firm chip contract. Both proposed pulp-mills will have an equal opportunity of acquiring chips from this material. As stated previously, the Squamish-based pulp-mill will have the added advantage of being able to compete for some of the pulp timber sales and purchase some of the increased supplies that will become available due to closer utilization in the Coast units.

Finally, with reference to the proposed new Chilko Public Sustained-yield Unit in the vicinity of the present Tatla Public Sustained-yield Unit, this unit will be left open, similar to the Skeena Public Sustained-yield Unit and the Ootsa Public Sustained-yield Unit in the north. Consideration may be given to the sale of long-term timber sale harvesting licences.

NOTICE

In the Matter of the Proposal Made by Intercontinental Pulp Company Ltd. for a Pulpwood Harvesting Area to Include the Following Public Sustained-yield Units: Blueberry, Moberly, Peace, Takla. In Addition, It also Requested Certain Harvesting Rights in the Special Sale Area and the Unregulated Area Consisting of the Drainages of the Wapiti, Murray, and Kiskatinaw Rivers.

UNDER authority invested in me under section 17A of the *Forest Act* as Minister of Lands, Forests, and Water Resources, a public hearing was held on January 8, 1965, in the Civic Centre at Prince George, B.C.

At the hearing Intercontinental Pulp Company Ltd. presented to me the following proposal:—

- (1) Intercontinental Pulp Company Ltd. proposes to construct and operate a bleached-kraft pulp-mill with a rated capacity of 650 tons per day of screened unbleached pulp.
- (2) Intercontinental Pulp Company Ltd. undertakes to start the site preparation work, detailed engineering, and construction on portions of District Lots 2061 and 2062, Cariboo District, upon receiving approval by the Govern-

ment of its application for pulpwood harvesting rights over the areas detailed in the presentation (see above), upon the signing of the necessary contract documents, and upon receiving title to the Crown portion of Lot 2061, Cariboo District.

- (3) Intercontinental Pulp Company Ltd. undertakes to have the mill in operation in 1968, and is prepared to post whatever reasonable performance bond the Government may require.

In support of this proposal, statements were made by the following groups or individuals:—

- (1) B.C. Spruce Sales Ltd.
- (2) Park Bros. Ltd.
- (3) Fort St. John Lumber Co. Ltd.
- (4) Chetwynd Chamber of Commerce.
- (5) Hudson Hope Chamber of Commerce.
- (6) Municipal Council of the City of Prince George.
- (7) Prince George Chamber of Commerce.
- (8) Industrial Development Commission.

There were no counter-proposals but objections were received from 63 individuals, companies, and organizations, which could be summarized under the following categories:—

- (1) The two major lumbermen's associations—The Northern Interior Lumberman's Association and The Cariboo-P.G.E. Lumber Manufacturers' Association—voiced their concern that there should be no further granting of pulpwood harvesting areas until there is assurance that the sawmill industry is not jeopardized. Both associations recommended that allowable annual cuts should be based on 7" d.b.h. utilization standard and that present quotas should be reallocated on this basis. In other words, any increase should be allotted to the already established sawmill industry. The Northern Interior Lumberman's Association objected to the inclusion of any unregulated areas in pulpwood harvesting areas and also requested a reassessment of the special sale area, basically to bring said area under sustained yield.
- (2) The group that had acquired, or were in the process of acquiring, long-term harvesting rights—namely, Northwood Pulp Limited, Alexandra Forest Industries Ltd., and Cattermole Timber Ltd.—basically objected to the inclusion of units adjacent to their areas of operation on the grounds that the granting of a pulpwood harvesting area over such units would effectively cut off the future for their developments before they have any exact knowledge of what their areas will provide. They recommended that these areas be left open for competitive bidding in the future.
- (3) The two submissions that did not oppose pulpwood harvesting areas but requested that the pulp-mills be established in their area—namely, Fort St. John and Quesnel.
- (4) The group that was basically interested in the special sale area and their request was that they be given the opportunity to harvest those stands now classified as pulp

stands. Evidence was given to the effect that they could and would utilize such stands to the same standard as a pulp operation.

- (5) By far the largest representation was made by those from the Peace River area. This included 52 briefs and over 500 letters and petitions. Their main objection was to the inclusion of the areas east of the Rocky Mountains on the grounds that any wood harvested in this area should be directed toward a pulp-mill located in the Peace River area. Studies have been made by the Greater Peace Forest Products Limited for the establishment of such a pulp-mill at Taylor, B.C. Considerable evidence was given as to the need of such an industry in that area.

In dealing with the proposal presented to me, I intend to consider, first, the application for a pulpwood harvesting area including the Takla, Peace, Moberly, and Blueberry Public Sustained-yield Units and the unregulated area consisting of the drainages of the Wapiti, Murray, and Kiskatinaw Rivers, and, secondly, the proposed future policy with regard to the special sale area.

After studying the facts presented, I feel there is considerable justification for the representations made by the large numbers from the Peace River area. Although the economics of a Peace River-based pulp-mill have not as yet been proven, I agree that until a full opportunity has been given to study the feasibility of the project, no alienation of the potential pulp values should be made. The problem is to determine the break-off point of timber values being transported west and south toward Prince George or timber values being transported east to a Peace River centre. In this regard there is no doubt that the effect of the lake to be formed by the Portage Mountain Dam project will have a bearing on this aspect. The Peace Public Sustained-yield Unit will be equally tributary to the west and south as it is to the east.

Considering the above, and the latest inventory data, I propose to recommend to the Lieutenant-Governor in Council that the following action be taken with regard to this application:—

I propose to designate the area within the Peace and Takla Public Sustained-yield Units Pulpwood Harvesting Area No. 7, and I propose to grant to Intercontinental Pulp Company Ltd., on evidence that proper financing can be arranged, an option agreement to purchase up to 32 million cubic feet annually in the Takla Public Sustained-yield Unit and up to 8 million cubic feet annually in the Peace Public Sustained-yield Unit, such volumes to be based on a 7.1" d.b.h. close utilization standard and within predominantly pulp stands.

In both of these units no quotas to date have been established. In the case of the Peace Public Sustained-yield Unit, operations have been confined to the area to be flooded on the understanding that future cutting rights would be related to performance in the flooded area. On the basis of the proposed option to Intercontinental Pulp Company Ltd. and the present inventory data, Intercontinental Pulp Company Ltd. would obtain an option on approximately 60 per cent of the calculated allowable annual cut to a 7.1" d.b.h. close utilization standard. This would leave 40 per cent to a 7.1" d.b.h. close utilization standard, in the case of the

Takla, to be used for Forest Service sales and, in the case of the Peace, for future timber for those presently operating in the flood area.

The Moberly Public Sustained-yield Unit will be left as an open area, and no decision will be made with regard to the Blueberry Public Sustained-yield Unit and the unregulated area contained in this proposal until such time as a full and proper feasibility study has been made with regard to the establishment of a pulp-mill in the Peace River area and a public hearing has been held.

In addition to the above, the applicant requested cutting rights in the special sale area, and, as a result, this question was aired rather thoroughly at the hearing, and to properly understand what is involved it is necessary to review the history of the special sale area.

When public sustained-yield units were established in the Prince George Forest District, the area now comprising the special sale area was not included because previous soil studies had indicated the area was best suited for agricultural purposes. By far the major proportion of the stands are in the 80-140-year age-class with only nominal areas of mature and overmature stands.

The thrifty mature stands, when utilized to a close utilization standard, contain high volumes per acre of sound wood at the same time they are healthy vigorous growing stands. Despite the fact that it had been recognized that these stands would ultimately be liquidated, for years timber-sale applications had been disallowed for two main reasons:—

- (1) Because of the relatively small-diameter trees in these stands and the type of mills established at the time, it was not possible to harvest such stands without leaving a considerable amount of waste on the logged areas at the mill; and
- (2) Any agricultural development would be slow and extend over a long period of time, and in view of the fact that these stands are generally healthy, they could wait at least another 20 years before cutting. With extensive overmature stands in surrounding public sustained-yield units, it was considered advisable to hold these stands for emergencies and future use.

At the time Pulpwood Harvesting Agreement No. 1 was considered, the company involved had never operated in the Prince George area and, therefore, held no position in the form of quotas in any public sustained-yield unit. Pulpwood harvesting area agreements were an entirely new concept, and how much material could be delivered at an economical price to the pulp-mill, particularly during the start-up period, was unknown. In order to obtain the required financing and place the entire concept on a firm basis, it was necessary to establish an area of relatively accessible raw material that could be used as a back-up area during the start-up period. A study of this situation was made, and the ideal area appeared to be the area that had been left out of the public sustained-yield units. Harvesting rights could be granted without interfering with any established quota-holders in the public sustained-yield units; thrifty mature stands could be harvested with a guarantee complete utilization would be obtained and the area would remain for emergencies and future use.

As a result, the area was established a special sale area by Order in Council No. 2811, dated November 22, 1962, and under such authority the licensee of Pulpwood Harvesting Area No. 1 was given the right to apply for a total of 300 million cubic feet over a period of 12 years from the date the pulp-mill went into operation, which will be 1966. Such sales are to be in specified pulp stands only. As in the past, the established sawmill operators were permitted to apply for sales in the mature and overmature stands. However, due to the fact that such stands were being rapidly cut out, a policy was established whereby only established operators could apply for further timber sales in mature and overmature stands based on their past production.

At the time of the hearing, there were three stud-mills established in the special sale area operating in pine stands which would come under the definition established for pulp stands. This type of operation could use the smaller material but they were not obtaining maximum wood utilization. There was considerable waste between the total wood volume in the forest and the volume of lumber that eventually ended up in the railway cars. This situation could be improved greatly by the installation of a barker and chipper which in turn depends upon a steady chip market. Pending a survey of the area and the completion of the pulp-mill, it was agreed to permit the three stud-mills to acquire pulp timber at a rate based on their past production in such stands with a maximum amount of not more than 2,000 M cubic feet per year.

The foregoing was the policy established with the signing of Pulpwood Harvesting Area Agreement No. 1 and which has been in existence ever since.

With this background information, we can now consider the briefs submitted at the public hearing.

All such briefs were fundamentally requests for increased cutting rights in the area.

Generally there was the suggestion that normal sawlog operators be permitted to apply for and operate in the thrifty mature stands on the grounds that they could operate to a 7" d.b.h. utilization standard, the inference being that the waste created would be manufactured into chips. If this was agreed to there would be no basis to restrict such applications other than the existing commitment in Pulpwood Harvesting Area No. 1, and with 142 established licensees and, undoubtedly, other interested parties throughout the Province, the area would be liquidated in a short period of time. This would be just a reversion to the old "cut out and get out" system and would not be in the public interest.

In addition to the above, a further suggestion was made that the area be placed on sustained-yield forest management with an 80-year rotation. Such a suggestion fails to recognize that eventually a considerable portion of the special sale area will be required for agriculture, and under the circumstances such areas could not be dedicated for the growing of continuous crops. It is not suggested that the entire area will be suitable or used for agriculture, but that a patchwork system of ownership will eventually evolve so that it would not be practical to manage the area on a sustained-yield basis. Eventually there is a good possibility that some of the area could be included in adjacent public sustained-yield units when

it has been determined that they are not suitable or required for a higher economic use.

In this regard, under the *Agricultural Rehabilitation and Development Act* programme in conjunction with the Federal Government, land-use studies are presently being made, and when completed they will assist in determining the ultimate best use of the lands involved.

For the above reasons it is therefore not considered practical to establish the area as a public sustained-yield unit.

It should be remembered that for over 40 years pulp-mills have been considered for this region. Studies were made, and there is no doubt that such studies indicated that the economics of operating a pulp-mill would be marginal. It is only during the last few years that this situation changed, and just because two pulp-mills are being built and two more are proposed—one at Prince George and one at Quesnel—does not mean that automatically large profits will be made. It is my opinion, because of numerous unknown factors in acquiring the quantities of raw material required for the proposed pulp-mill developments, that the next 10 to 12 years will be extremely critical, and, therefore, the reasons for establishing the special sale area originally are still valid, if not more so today. There was nothing presented at any of the hearings that, in my opinion, indicated otherwise.

As a result of the recent detailed inventory of the special sale area, and after deducting 20 per cent for possible losses due to alienations, fire, etc., there is a volume in excess of 1,200 million cubic feet of timber classified as pulpwood in the 80-140-year-old stands, provided such stands are utilized to a 7.1" d.b.h. close standard. In view of this volume I propose to extend to Northwood Pulp Limited, Intercontinental Pulp Company Ltd., and Cariboo Pulp & Paper Company Limited similar privileges in the special sale area as were granted to Prince George Pulp and Paper Limited; that is, to advertise for sale for a period of 12 years from the date of the pulpwood harvesting agreements Crown timber from thrifty mature pulp stands, said stands being defined as stands of timber which fall in the 80-140-year class and in which 50 per cent or more of the gross sound-wood volume, when utilized to a 7" d.b.h. and a 4" top diameter, is contained in 16-foot logs whose top diameter, inside bark, is less than 11".

Licences for such sales will be designated as "pulp timber sale licences," and the aggregate volume of timber sold to Northwood Pulp Limited, Intercontinental Pulp Company Ltd., and Cariboo Pulp & Paper Company Limited from the special sale area will not exceed 200 million cubic feet to each company.

In addition, all stud-mills established in the area as of January 1, 1965, will be given the opportunity to acquire up to 2 million cubic feet per year from the thrifty mature pulp stands, provided they are prepared to install the necessary barking and chipping facilities to guarantee close utilization to a 7.1" d.b.h. and a 4" top. It is estimated that the aggregate volume that will be available for such sales will be approximately 300 million cubic feet. Present policies with regard to the established sawmills in the area will be continued; that is, they may apply for timber that is classified as mature, overmature, or as sawlog stands in the 80-140-year-old age-class.

The above, in effect, is a continuation of policies established for the special sale area in early 1963 and which are essential to guarantee the establishment of a sound pulp industry within the region.

It should be understood that under the pulpwood harvesting area agreements, issued or to be issued, the holder must establish his position in the public sustained-yield units incorporated in the pulpwood harvesting area. It is recognized, however, that time may be required to develop the necessary techniques to deliver the necessary quantities of raw material to the pulp-mill. The rights granted in the special sale area are to be used as a backlog supply in the event delivery schedules from the pulpwood harvesting area cannot be met during the initial years of development.

In summary, therefore, it is proposed to designate the area within the Takla and Peace Public Sustained-yield Units to be Pulpwood Harvesting Area No. 7. It is further proposed to grant to Intercontinental Pulp Company Ltd. an option agreement to purchase not more than 40 million cubic feet annually from the above pulpwood harvesting area, and on application from Intercontinental Pulp Company Ltd. advertise for sale for a period of 12 years from the date of the pulpwood harvesting area agreement Crown timber from thrifty mature pulp stands within the special sale area. The aggregate volume to be sold under such sales is not to exceed 200 million cubic feet.

RAY WILLISTON,

Minister of Lands, Forests, and
Water Resources.

Victoria, B.C., March 17, 1965.

TIMBER SALE X93342

THERE will be offered for sale at public auction, at 11 a.m. on the 30th day of April, 1965, in the office of the Forest Ranger at Dawson Creek, B.C., the Licence X93342, to cut 973,000 cubic feet of spruce, lodgepole pine, and balsam on an area situated 16 miles north-west of Groundbirch, Peace River Land District.

Three years will be allowed for removal of timber.

Provided anyone who is unable to attend the auction in person may submit a sealed tender, to be opened at the hour of auction and treated as one bid.

Further particulars may be obtained from the Deputy Minister of Forests, Victoria, B.C.; the District Forester, Prince George, B.C.; or the Forest Ranger, Dawson Creek, B.C. mh18-4645

TIMBER SALE X94905

SEALED TENDERS will be received by the District Forester at Vancouver, B.C., not later than 11 a.m. on the 5th day of April, 1965, for the purchase of Licence X94905, to cut 28,000 cubic feet of fir, cedar, and hemlock on an area situated west of Harrison Lake, New Westminster Land District.

Two years will be allowed for removal of timber.

As this area is within the Soo Public Sustained-yield Unit, which is fully committed, this sale will be awarded under the provisions of section 17 (1a) of the *Forest Act*, which gives the timber-sale applicant certain privileges.

Further particulars may be obtained from the District Forester, 631 Marine Building, Vancouver 1, B.C., or the Forest Ranger, P.O. Box 69, Harrison Hot Springs, B.C. mh18-4645
